2. STUDENT TEACHER RATIO 11:1
3. AVERAGE SAT SCORE = 1770
4. AVERAGE ACT SCORE = 29

BLUE RIBBON SCHOOL

Welcome to Mt Dora Academy

Mt Dora Academy is located on a beautiful 70 acre campus in Mt Dora Florida, close to Orlando and Disney World. The school is a private K-12 school that was established in 1945.

The high school, grades 9-12, provides a rigorous and dynamic curriculum that ensures students receive exposure to a wide range of disciplines.

Mt Dora Academy offers over 25 accelerated, advanced placement and dual enrollment classes on campus. The subject-certified teachers strive to develop courses that encourage the students to not just memorize material but apply the material to their daily lives. Students can also enroll in a Life Calling course that leads to self-discovery and will better prepare them for the challenges they will face in college.

Currently, technology is advancing rapidly, all secondary students are required to have an iPad. iPads are used to readily access Renweb and Moodle applications and can be rented through the school. In addition to a well-rounded curriculum and the latest technology, Mt Dora Academy secondary students are encouraged to get involved with extracurricular activities such as service groups, athletics, robotics, and fine arts.

Biomedical Sciences Institute (BSI)

Mount Dora Christian Academy (MDCA) in conjunction with Project Lead The Way (PLTW) has launched a Biomedical Sciences Institute (BSI). The program has been designed for high school students starting in grade 9. The exciting BSI curriculum will allow students to delve into the medical field through their work in the classroom, the lab and from real-world experiences.

BSI was created to promote greater interest in healthcare careers and to provide students with the opportunity to gain more in-depth knowledge as well as to meet the rising demand for healthcare professionals.

STEAM
